

Thank you and welcome to Café Soya, Restaurant

Hoy-sum dao literally mean “happy bean” or “seed of happiness”. Our philosophy is based on the principle that happiness begins with healthy eating.

The humble soya bean seed has been consumed in the far east for thousands of years, recognised for both its nutritional value and culinary versatility. Soya beans can be made into soya milk, desserts, and many forms of soya beancurd, its taste can be enhanced with many ingredients to make delicious dishes. Our family has a tradition of making soya products and pledge that our products are made fresh daily.

We hope you will enjoy eating soya as much as we enjoy making it. We are confident it will grow on you.

*Enjoy.*
